

**WAYZATA CITY COUNCIL
MEETING MINUTES
JANUARY 23, 2024**

AGENDA ITEM 1. Call to Order.

Mayor Pro-Tem Plechash called the meeting to order at 7:00 p.m. Mayor Pro-Tem shared the multiple options for joining remotely and submitting comments or questions.

AGENDA ITEM 2. Pledge of Allegiance.

AGENDA ITEM 3. Roll Call.

Council Members present: Iverson, MacDonald, Plechash, and Parkhill. Also present: City Manager Dahl, Community Development Director Goellner, and City Attorney Schelzel.

Council Members absent: Mayor Mouton

AGENDA ITEM 4. Approve Agenda.

Mayor Pro-Tem Plechash explained that the agenda has been amended to include item 8.d., Consider a Special Event Permit Request for Amended Chilly Open Event by the Greater Wayzata Area Chamber of Commerce.

Ms. MacDonald made a motion, seconded by Mr. Parkhill, to approve the agenda, as revised with the addition of item 8.d. The motion carried 4/0.

AGENDA ITEM 5. Public Forum.

a. Recognition of the Retirement of Rich Holm, Firefighter

City Manager Dahl explained that it was bittersweet to say goodbye and happy retirement to Rich Holm who has served the community for 37 years. He stated that Mr. Holm and his family are the epitome of a community servant and explained that he wanted to personally thank Mr. Holm for serving the community in so many different ways over the years and he would be missed. He stated that he will miss attending meetings with Mr. Holm because he knew that he would always present him with a good, challenging question or a really funny, challenging comment. He noted that Mr. Holm was never afraid to speak up, which meant that this organization was better as a result of that.

Fire Chief Klapprich explained that he had a tough time talking Mr. Holm into even coming to receive this recognition from the City. He stated that he will do what Mr. Holm asked him to do, so he would just say that City Manager Dahl just said everything that he had planned to say already and extended his thanks to Mr. Holm. He shared some background information about Mr. Holm and his experience as a firefighter, a pump operator/driver, filled in as a lieutenant, Fire Department President, Fire Department Relief Association President, and explained that Mr. Holm had just made this a better place all around. He stated that he would agree with Mr. Dahl that Mr. Hold was never afraid to speak up and was always there when you needed him. He presented him with the gift of a clock from the City on behalf of his years of service to the Fire Department and the City.

Mr. Holm thanked his wife and his family for their support because to do this job successfully, you have to have your family behind you. He also expressed his appreciation

1 to the Fire Department, both past and present as well as the Police Department for their
 2 support. He encouraged anyone interested to join the Wayzata Fire Department because
 3 they are the most awesome organization that you can imagine.

4 There was a round of applause for Mr. Holm.

5 Chief Klapprich thanked the members of the Fire Department, including those that
 6 had just received a call for service and other members of the community for being here to
 7 support Mr. Holm and the Fire Department.

8 Ms. Iverson stated that Mr. Holm's and the Fire Department's service has been so
 9 important to the City in what they do on a daily basis. She thanked him for his 37 years of
 10 service to the City and agreed that he would be missed.

11 Mayor Pro-Tem Plechash stated he had served on the Fire Department with Mr.
 12 Holm and noted that it was a testament to his contributions to see how many people showed
 13 up to honor him tonight from the Fire Department, Police Department, as well as family
 14 and friends. He noted that he was not exaggerating to say that Mr. Holm has been a real
 15 value to the Department and a real value to him personally because he was one of the
 16 individuals who acted as a mentor for him when he served on the Department.

17 **AGENDA ITEM 6. New Agenda Items.**

18 **AGENDA ITEM 7. Consent Agenda.**

19
 20 Mayor Pro-Tem Plechash read the items on the consent agenda and asked if any Council
 21 member wished to pull an item for further discussion.

22 Ms. Iverson stated that she would like to have a quick discussion regarding item k.
 23 She stated that the Council had decided that they would go ahead and fund the special type
 24 of Kebony wood for the docks which resulted in an additional cost of \$200,000. She noted
 25 that the City moved forward with the understanding that the Conservancy would fund those
 26 additional costs and wanted to clarify that this item was for that purpose. She stated that
 27 she wanted it known that if the Conservancy was unable to raise the necessary funds, the
 28 residents would be liable for paying these additional costs. She explained that her
 29 preference is to have the money in the bank before they move forward, so she is not
 30 comfortable approving that particular thing, but believes she was in the minority, which
 31 was why she did not want to actually pull it from the Consent Agenda.

32 Mayor Pro-Tem Plechash stated that he would like to pull item j. for separate
 33 discussion.
 34
 35

36 Hearing no additional requests, he asked for a motion to approve the Consent Agenda items
 37 a-i, and k, as presented. Mr. Parkhill made a motion, seconded by Ms. MacDonald, to
 38 approve the consent agenda:

- 39 a. Approval of City Council Workshop and Regular Meeting Minutes of January 9,
 40 2024
- 41 b. Approval of Check Register
- 42 c. Approval of Municipal Licenses
- 43 d. Receipt of Police Activity Report
- 44 e. Receipt of Building Activity Report
- 45 f. Approval of Professional Services Agreement with NEOGOV for Recruitment and
 46 Onboard Software and Implementation Services

- 1 g. Adoption of Resolution 08-2024 Approving Closure and Transfer of Funds
- 2 h. Authorization to Solicit Bids for the 2024 Mill & Overlay Project
- 3 i. Authorizing to Solicit Bids for the 2024 Seal Coat Project
- 4 ~~j. Adoption of Resolution 07-2024 Denying PUD Amendment and Shoreland~~
- 5 ~~PUD/CUP at 825 Mill Street East (pulled for separate discussion)~~
- 6 k. Receipt of Memorandum of Understanding (MOU) with The Wayzata Conservancy
- 7 for Panoway Dock Funding

8

9 Ms. Iverson noted that she was not comfortable pulling item j. from the Consent Agenda
10 and explained that she would not be changing her vote. She stated that she felt that
11 everything was clearly discussed at the last Council meeting.

12 Mayor Pro-Tem Plechash explained that he had wanted to pull that item because he
13 was the sole vote in favor of the last version and did not want it to be part of the Consent
14 Agenda because he intends to vote against that item.

15 City Attorney Schelzel clarified that the motion on the floor at the moment is to
16 approve the Consent Agenda with item j. pulled. He explained that whenever a
17 Councilmember either wants to have further discussion or a separate vote, it is their right
18 to have it pulled from the Consent Agenda.

19

20 The motion carried 4/0.

21

22 Consent Agenda Item j: Adoption of Resolution 07-2024 Denying PUD Amendment and
23 Shoreland PUD/CUP at 825 Mill Street East

24

25 Mr. Parkhill stated that he thinks everyone on the Council is trying to do what is best for
26 Wayzata and Mayor Pro-Tem Plechash had asked him to rethink his vote on this item. He
27 stated that he thinks it is very important for the Council to be very thorough when they
28 make these decisions and wanted to acknowledge how much he thought the change in the
29 street presence in the new design really made it a lot more inviting. He explained that he
30 really wanted to do what was right for the City on this item which was why he has gone
31 back and really given this some additional thought. He noted that he had heard second
32 hand, through Mayor Pro-Tem Plechash, that some people felt the Council made the wrong
33 decision on this item. He stated that the two questions that came to mind for him were
34 whether the City needed more residential units that commercial units right now and has
35 Presbyterian Homes thought creatively enough and done all they could to market their
36 space to lease it for commercial use. He reviewed various developments in the City
37 including Wells Fargo, Moments of Wayzata, Cantissimo, Westway Condos, TCF
38 buildings last proposal, and Rice/Broadway condo units which totals 120 senior living, 79
39 rentals, 70 condos for a total of 269 new units in the next few years. He stated that 12 more
40 nice units like those proposed by Presbyterian Homes would certainly get absorbed, but he
41 questions if they are really needed. He stated that 825 Mill Street would be on the way for
42 79 of the units for people to walk between their units and Lake Street and felt it would be
43 really nice if there were some coffee shops or some amenity retail in that location to bring
44 them down that way. He stated that the thing that has kept this parcel from being leased is
45 that it is big, deep, and looks like a big brick wall which is not very inviting. He asked if
46 Presbyterian Homes had considered 12 retail spaces rather than 12 residential spaces and

1 using the back areas for the amenities that they wanted to add to their existing community.
 2 He asked if they had considered mixed use, such as 6 residential and 6 retail spaces. He
 3 suggested that they may be able to use the same design they had worked on for the
 4 residences to brighten up the place and put 6 retail spaces in the middle and flank them
 5 with the residential units. He stated that it is also possible that what they were asking for
 6 in rental and CAM costs were too high for this spot because it is limited. He suggested
 7 that they could also invest in the building and make it look inviting to customers and
 8 explained that he agreed with Mayor Pro-Tem Plechash that large format stores and retail
 9 will not work in this location and the single hair salon that had occupied the space was a
 10 bit lonely, nor did it perform very well. He explained that his main point is that real estate
 11 is sometimes about investing in fringe areas to bring them into the mainstream and this is
 12 just one block off the mainstream. He stated that he believes once there are 3 or 4
 13 businesses there, the other spaces would fill up rather quickly. He reiterated that the City
 14 has a lot of residences that will be coming on line very soon and believes that the City will
 15 need this retail space and that the owners will need to take a risk to make something the
 16 City needs happen. He clarified that he was glad that they were having additional
 17 discussion on this item, but his vote has not changed.

18 Mayor Pro-Tem Plechash stated that Mr. Parkhill presented some very compelling
 19 arguments. He noted that he hopes that he will be proven wrong in this vote and that a few
 20 years from now this space will be filled with commercial or retail. He explained that his
 21 fear is that it will not be because this has already been a ten-year experiment that has failed.
 22 He stated that he has to believe the Presbyterian Homes has been searching for ways to fill
 23 this space, because it is expensive remaining vacant.

24 Ms. Iverson thanked Mr. Parkhill for his well thought out description of his thought
 25 process. She explained that she had gone out and talked to quite a few of the tenants that
 26 are out there that also believe retail brings retail and by having more it will become an area
 27 that thrives. She stated that she is hopeful that the City can successfully work with
 28 Presbyterian Homes in order to figure out what that mix should be. She reminded everyone
 29 that one of the perks in this area are the heated sidewalks.
 30

31 Hearing no additional discussion, Mayor Pro-Tem requested for a motion to approve
 32 Consent Agenda items j, as presented. Mr. Parkhill made a motion, seconded by Ms.
 33 MacDonald, to approve item j. of the consent agenda, as presented.
 34

35 The motion carried 3/1 (Plechash opposed).
 36

37 **AGENDA ITEM 8. New Business.**

38 **a. Consider Adoption of Resolution 05-2024 Appointing Parks & Trails Board** 39 **Member**

40 Mr. Dahl stated that when the Council made various appointments to Boards and
 41 Commission in October 2023, there were still a few vacancies on the Parks & Trails Board.
 42 He explained that there were two really qualified candidates who had expressed interest in
 43 serving on the Planning Commission and were also interested in this Board.
 44

45 Mayor Pro-Tem Plechash asked for a motion on the draft resolution. Ms. Iverson made a
 46 motion, seconded by Ms. MacDonald, to Adopt Resolution No. 05-2024 Appointing Parks

1 & Trails Board Member Blake Cameron to a three-year term expiring December 31, 2026.
2 The motion carried 4/0.

3
4 **b. Consider Approval of First Reading of Ordinance 835 Amending City Code**
5 **Chapter 716 Related to Charitable Gambling**

6 Mr. Dahl reviewed some background information on the current ordinance and the request
7 to amend the ordinance in order to allow charitable gambling at an additional location. He
8 noted that the Council had discussed this at their January 9, 2024 Work Session meeting
9 where they gave staff the direction to limit expansion of charitable gambling to two
10 locations in the City: Wayzata Muni and American Legion. He noted that if this ordinance
11 is passed, it will still need to have a Second Reading and upon that being published, then
12 the American Legion could go through the necessary license and registration process
13 through the state that will allow them to have pull tabs.

14 Mr. Parkhill asked if this would involve getting an annual license or was it in
15 perpetuity.

16 Mr. Dahl stated his understanding is that the licensing is annual so there would be
17 a reapplication process.

18 Mr. Parkhill confirmed that the American Legion already had a gambling license
19 and this would allow for pull tabs. He asked if the City ever denied licenses.

20 Mr. Dahl stated that he does not believe they have ever had to deny a license, but if
21 the City had reason to not feel comfortable with the operation and/or it was not consistent
22 with their code or community values, they would look at it more closely.

23 Mr. Parkhill stated that this was sounding like more of a permanent change.

24 Mr. Dahl confirmed that it would essentially be a permanent change.

25 Mayor Pro-Tem Plechash stated that there was information discussed that one of
26 the options that the City has is to institute a 10% revenue share or fee from the
27 establishment and that has not been mentioned yet in the discussion. He stated that his
28 understanding is that this is the City's option and they could go ahead and do that tonight
29 and if they do it for this organization they would have to do it for others.

30 Mr. Dahl stated that was correct.

31 Greg Greffin, 1539 Claire Lane, stated that he was here as a speaker for the Wayzata
32 Lions Club. He explained that he had been a Lion for 45 years and noted that Lions is
33 actually an acronym for Liberty Intelligence Our Nations Security. He stated that the
34 Wayzata Lions Club has been licensed to operate pull tabs since May of 1988 at the
35 Municipal Wayzata Bar & Grill and since that time they have contributed \$1,316,000 to
36 the Wayzata Fire Department capital equipment fund and the same dollar amount has gone
37 to numerous local charities. He stated that their goal moving forward is to generate
38 equivalent revenues in order to continue to contribute to the Wayzata Fire Department
39 capital equipment fund. He stated that if the American Legion Post #118 is allowed to
40 offer lawful gambling pull tabs, they ask for the City's consideration that their voluntary
41 contribution be congruent to a similar good faith agreement in line with the 50%
42 benchmark that the Wayzata Lions have historically contributed. He noted that the Lord
43 created Wayzata to be a town of abundance, not scarcity and he believes that there is plenty
44 of revenue to do around for both and reiterated that they were just asking that they have
45 the same level, equal, playing field in terms of contributions to the City and the Fire

1 Department. He explained that they were deeply grateful to the City for granting their club
2 over 36 years the exclusive right to sell pull tabs.

3 Kirk Zahrbock, 1310 Holdridge Terrace, stated that he moved to the City in 1984
4 and joined the Fire Department in 1986. He stated that he, along with Brian Botham were
5 the two firemen that served on the pull tab committee along with Bill Nelson and Ed Stanke
6 and met monthly for several years. He stated that the Wayzata American Legion owns
7 their building and has a lot of overhead and serve the Veteran's. He stated that the Lions
8 have done a great job and expressed his appreciation for all they have done. He explained
9 that the Legion has a lot of expenses in house, in addition to taking care of the Veteran's
10 and serve the community. He stated that when Bill got hit, the fundraiser was held at the
11 Legion. He stated that pull tabs are a legal thing to do and right now there is just one place
12 in town that can sell them, but there are a number of places just beyond the City that also
13 offer them which means that money is leaving town and going to other communities. He
14 stated that this action gives the City the ability to keep more of that revenue here in town
15 and thinks this will bring in even more people because he knows some people do not come
16 because they do not offer pull tabs and noted that he did not think there was another
17 American Legion that did not already offer pull tabs. He stated that with the restaurants in
18 town, Wayzata is now a destination, so there are more people coming into town at night.
19 He stated that the American Legion is planning to give the City what they can, but reiterated
20 that they have a lot more overhead than the Lions has because they have a building to
21 maintain. He stated that he wanted to assure the Council and Mr. Greffin that they have
22 always given back to Wayzata and with this change, will still give back to Wayzata.

23 Mr. Dahl clarified that there is no requirement from the City that the Lions or other
24 organization has to make a 50% contribution to the City. He stated that amount is
25 something that the Lions Club is doing in good faith.

26 Kent Howe, 1600 Holdridge Lane, stated that there was a question raised about the
27 10% surcharge and if that took place, he cautioned that it would eat into the amount they
28 give and would essentially reduce what they would be giving.

29 Mr. Parkhill stated that he feels that Wayzata is a bountiful community and there is
30 a lot of generosity in the City. He stated he believed it was appropriate to allow the Legion
31 to have pull tabs and thinks that both the Lions and the Legion have their mission giving
32 in the amount that they want to give. He noted that he thinks it is really hard to make this
33 an 'apples to apples' type comparison and equate one to the other and stated that it is also
34 hard to dictate generosity but believes that both organizations are going to continue to be
35 generous to Wayzata, the Fire Department, and the Boardwalk. He reiterated that it is
36 difficult to dictate generosity and noted that he did not think the City should charge the
37 surcharge.

38 Ms. Iverson stated that she agreed with Mr. Parkhill's comments. She noted that
39 as a 'hockey mom' she found out pretty quickly about the whole pull tab community and
40 would describe it as strong. She stated that she believes that this will continue to be a
41 strong community that supports it in multiple locations. She noted that she thinks there are
42 a bit of different demographics in the two locations and has seen people play pull tabs
43 anywhere that they are available and did not feel it would deter one from the other and will
44 benefit people who are seeking that activity. She stated that she has heard stories from
45 groups of hockey parents who went to the Legion and was surprised that they did not have

1 pull tabs. She stated that she also supports this action and also did not think the City should
2 charge the 10% surcharge that was mentioned in the packet.

3 Ms. MacDonald stated that she also agrees with what has been stated and also
4 supports amending the City code to allow another charitable gambling with pull tabs at the
5 Legion. She expressed her gratitude as both a Councilmember and a community member
6 for the generosity from the Lions and the Legion.

7 Mr. Plechash stated that he is a little conflicted because he is a Veteran and values
8 what the Legion and other Veteran groups have done. He stated that he is also a Boy Stater
9 and has certainly taken note of their contributions in the past, but especially noticed Tee it
10 up for the Troops. He explained that he was President and Chairman of the Board for that
11 organization for ten years. He stated that some of his concerns had already been touched
12 on a bit such as cannibalization of contributions to the Fire Department but believed that is
13 kind of an unknown. He stated that he was hopeful the contributions would continue from
14 both organizations, but it was not a requirement from the City. He stated that he heard
15 statements made tonight that referred to the high expenses in operating the Legion, but his
16 understanding is that all of the money that is raised in pull tabs has to go for certain things
17 so if the plan was to use it for operations, he would need to know that. He asked if he was
18 correct that the pull tab money cannot be used for operational expenses.

19 Mr. Dahl stated that he did not think they could be used for operational expenses,
20 but thinks capital improvements would be fine. He noted that the representatives from the
21 Lions and Legion could probably answer that question more easily than he could.

22 Mr. Schelzel stated that the money raised from charitable gambling has to go
23 towards charitable-eligible expenses and would note that the Legion is, itself, a charity.

24 Mr. Dahl explained that the Legion is audited every year and have to have qualified
25 expenses.

26 Mayor Pro-Tem Plechash stated that it is very clear that these organizations do good
27 things and have a history of doing good things going back a very long time. He stated that
28 overall, he believes that this will be a value to the community and would hope that it is not
29 just a matter of people going The Muni or the Legion to play pull tabs but that it create a
30 more vibrant, attractive place for people to come from other places that wouldn't normally
31 come to the Legion. He stated that he would agree with the comment made by Ms. Iverson
32 that the clientele at the Legion is slightly different than at The Muni.

33
34 Mayor Pro-Tem Plechash asked for a motion. Ms. MacDonald made a motion, seconded
35 by Mr. Parkhill, to Approve the First Reading of Ordinance 835 Amending City Code
36 Chapter 716 Related to Charitable Gambling. The motion carried 4/0.

37
38 **c. Consider Adoption of Resolution 06-2024 Adopting Updated Panoway**
39 **Signage Design Standards**

40 Community Development Director Goellner outlined the existing City policy on naming
41 and dedicating City-owned land and facilities. She reviewed the Panoway Design
42 Standards that were adopted in March of 2021 and the amendment adopted in May of 2023.
43 She explained the proposed amendment to update the Panoway Signage Design Standards
44 and incorporated dock signage including a Depot Docks sign in Depot Park and a
45 Broadway Docks sign at the Broadway rail crossing. She gave an overview of the review
46 process prior to coming before the Council. She showed renderings of the proposed Depot

1 Docks and Broadway Docks sign. She explained that staff recommended approval as
2 proposed.

3 Dan Koch, 205 Bushaway Road, representing the Wayzata Conservancy, thanked
4 the City staff, Council, and community members for all their work on this proposed update.
5 He stated that the Conservancy made a lot of great progress with fundraising in 2023 and
6 noted that donations received totaled around \$1.3 million. He explained that the donor
7 recognition plaques are a very important tool for their fundraising efforts. He stated that
8 the Conservancy felt strongly about keeping the wood on the docks as Kebony and
9 understood that there was a shortfall that would have to be addressed. He noted that the
10 Conservancy is prepared to do that but asked that they are given these signs as a way to
11 help bring that money in and close the gap.

12 Mayor Pro-Tem Plechash asked if the contributor names that will appear on the
13 signs would just be on one side or both. Mr. Koch stated that he believed it was just on
14 one side.

15 Ms. Goellner confirmed that the names would just appear on the land side of the
16 sign. She explained that the lake side of the signs will just be directions to places in the
17 City.

18 Mr. Parkhill noted that he also serves on the Conservancy so he is pretty familiar
19 with this proposal. He explained that he felt everyone had done a great job looking at this
20 and this will give the Conservancy the tools they need to raise the money that is needed so
21 he was in support of this update.

22 Ms. Iverson stated that she understands that the Conservancy had a very successful
23 2023 with their fundraising efforts and stated that he hoped that 2024 would be as
24 successful. She explained that her concern was about when these changes would stop and
25 noted that it feels as though there has been change, after change, after change. She noted
26 that she has always been concerned about this and also has concerns about the size, scale,
27 and visual clutter that these may bring. She expressed concern that if there is another
28 shortage that they will come back with another request for additional changes. She stated
29 that Wayzata is a wealthy community and wonders if there may be people who are willing
30 to donate without having name recognition and reiterated that she was worried about visual
31 clutter and visibility. She noted that she was not in support of moving forward and would
32 love to see the Conservancy get other tools in their toolbox to raise money.

33 Ms. MacDonald stated that she likes these signs and explained that she was always
34 wary about the amount of inventory of the naming opportunities in the park. She explained
35 that she does like that these signs have a way finding aspect to them as well and noted that
36 it feels like an appropriate place to point someone in the right direction. She stated that she
37 likes the proposed size of the signs and understands that this type of recognition is probably
38 a great tool for the Conservancy and she supports this update.

39 Mayor Pro-Tem Plechash stated that he also supports this request and explained
40 that he does have some concerns, but not enough to override his support. He feels that the
41 signage is down to a smaller number than what had originally been proposed and will also
42 support this request.

43 Ms. Iverson referenced the sign depicted on page 127 of the packet and on the
44 Boardwalk rail alone there are 735 messages. She stated that she would agree that the
45 overall number of signs has decreased from what was originally proposed, but she would

1 repeat her earlier comments about visual clutter because there are large quantities of these
2 signs and message proposed for a small space.

3
4 Mayor Pro-Tem Plechash asked for a motion on the application. Ms. MacDonald made a
5 motion, seconded by Mr. Parkhill, to Adopt Resolution 06-2024 Amending Design
6 Standards for Panoway Naming & Dedication Signage to Include Dock Signage Standards.
7 The motion carried 3/1 (Iverson opposed).
8

9 **d. Special Event Permit Request for Amended Chilly Open Event by Greater Area**
10 **Chamber of Commerce**

11 Mr. Dahl explained that this agenda item had been added early this morning and reviewed
12 the request. He noted that the previous request for an amendment to allow for an on-land
13 option is no longer a viable option so they would like to propose a just in case option 'on
14 ice' near the Wayzata Sailing School. He explained that staff has given them some
15 preliminary feedback on their proposal and stated that while they feel they could probably
16 make it work, there is some risk involved and were concerned about the timing and limited
17 notice for people around the area. He noted that ultimately the 'gorilla' in the room is the
18 weather and the ice and explained that staff is really trying to be accommodating, but for
19 something like this, another option after extensive conversations two weeks ago, they feel
20 strongly that it was done too quickly for them to give a recommendation of approval. He
21 reiterated that staff is really concerned that there is not enough timing and that there is a
22 viable Plan A option still there and feel they should stick to that.

23 Ms. Iverson thanked the Chamber for the material they had submitted and noted
24 that she believed there was a lot more information included this time than there had been
25 last time. She noted that the pros and cons that were listed were very helpful because it
26 helped her understand some of the issues they were facing. She stated that one of the cons
27 in looking at the sailing school is the notification to the neighbors and asked if they could
28 designate Lake Street, Lake Street Extension, East Circle Drive, Wise, Central, and LaSalle
29 as 'No Parking'. City Engineer/Public Works Director Kelly stated that they could
30 certainly do that and noted that this had come up earlier today when they were talking about
31 it and he would consider that to be one of the conditions of approval.

32 Ms. Iverson stated that because this would involve such short notice, she thinks that
33 would help alleviate many of the concerns that the neighbors may have. She noted that
34 one of the other 'cons' that was listed was finding a place for 60 people for the Wayzata
35 Yacht Club and asked if the Chamber had been able to work through that issue.

36 Becky Pierson, Wayzata Area Chamber of Commerce, stated that they have
37 connected with a few different options on the displacement of 60 people, but because this
38 is a last minute thing, they are just holding onto one in particular and do have another
39 possibility. She thanked the Council for allowing her to be here and City staff for the time
40 they have spent working with her. She stated that she thinks that the discussion they all
41 had on their land proposal option at the last Council meeting was a good exercise and thinks
42 that in the future that may be something that they move towards. She clarified that she did
43 not think all the discussion and questions asked were for naught. She explained that the
44 reason they got to the point with this new option was within the last 2 weeks, they were
45 recognizing that the Wayzata Sailing Center was forming ice when the ice with the
46 construction was still being disrupted every day. She stated that it ended up being sort of

1 a 'light bulb' moment of that location perhaps being an option for them. She thanked the
2 Wayzata Sailing Center for their willingness to partner with the Chamber in an attempt to
3 make this event work. She explained that they have had indication from the Wayzata
4 Sailing Center that they have a very strong relationship and communication with the
5 residents in their area and have offered to help facilitate those efforts. She noted that there
6 had been mention of the liquor license and explained that they have made some additional
7 decisions related to that. She explained that Friday night typically they have had a live
8 music event in the tent and they have decided not to have that this year and keep their focus
9 on the golf tournament.

10 Mr. Parkhill asked if they currently have a liquor license for Friday and Saturday
11 night and asked what they were planning to change. Ms. Pierson explained that, in the
12 past, they have only utilized the liquor license on Friday night when they sold beer and
13 wine inside the tent.

14 Mr. Parkhill confirmed that they do not sell beer and wine out of the tent on
15 Saturday which meant that everything was BYOB.

16 Ms. MacDonald asked what the City requires for notification for large events like
17 this for the neighborhood. Mr. Dahl stated that typically the notification takes place a
18 significant time prior to the event.

19 Ms. MacDonald asked how they notify the neighbors. Mr. Dahl explained that it is
20 left up to the applicant and many times they simply knock on doors, call, or sending
21 something in the mail. He stated that the City can also contribute by using the newsletter
22 and e-mail.

23 Ms. MacDonald asked if any of the neighbors had been notified yet. Ms. Pierson
24 stated that was correct because they have not yet gotten approval to move down to that
25 location. She explained that if they received approval tonight, and that location becomes
26 the back-up plan, they could give them a heads up. She noted that she would probably look
27 to Wayzata Sailing Center to give some guidance on the best approach for this
28 communication.

29 Ms. MacDonald explained that she is torn about the process of informing the public
30 because if the City approves this Special Event permit and then reaches out to the neighbors
31 and they are unhappy with having thousands of BYOB golfers in their area, there really
32 isn't any avenue for the residents to voice their concerns other than after the fact. She
33 stated that she is a bit disappointed that a few phone calls hadn't already been made during
34 this process. She asked if, as of right now, the Sailing Center ice looked different, thicker,
35 or safer than what is at the beach right now. She explained that she was struggling with
36 the question of whether there wasn't enough ice at the beach whether there would actually
37 be enough ice at the Sailing Center. Ms. Pierson stated that as of today, the ice is measuring
38 the same at both locations at 13 inches.

39 Ms. MacDonald stated that if that stays the same there would not be a need for the
40 backup location with the Sailing Center. Ms. Pierson stated that was correct and explained
41 that if the ice is equally safe in both locations and there is access to get out to a course off
42 the beach, there will not be a need to change locations.

43 Ms. MacDonald asked how many more inches of ice were necessary. Ms. Pierson
44 stated that they have had an event, in the past, with no vehicles allowed on the ice in the
45 10-13 inch range. She stated that they have had conversations with the Hennepin County

1 Water Patrol to get some additional input on potential use of things like ATVs in a limited
2 capacity.

3 Ms. MacDonald asked for reasons that would hinder them from using the beach
4 location and if an example would be the dredging activity and equipment. She asked if, as
5 of now, Ms. Pierson felt that equipment would be in the way. Ms. Pierson stated that
6 knowing that there are Mother Nature things happening as well as some man-made things
7 happening, they just wanted to have a backup option. She stated that something that has
8 come up in the last 24 hours is some wind coming across the lake that has started to impact
9 the ice in the beach area and there is a larger pressure ridge that has formed at the beach
10 area. She stated that at midday today there was about 4 inches of standing water that was
11 sitting on top of the good level of ice which could pose a problem for getting people across
12 to the ice. She noted that the Wayzata Sailing Center location does not have any of that
13 impact from the wind happening.

14 Ms. MacDonald stated that it sounds like most of the hindering factors are related
15 to Mother Nature rather than the work the City is doing in the area.

16 Mr. Parkhill stated that the ice is 13 inches right now but believes there is 48 degree
17 weather in the forecast over the next few week. He stated that his understanding is that the
18 Chamber is going to make a final determination on cancellation tomorrow. Ms. Pierson
19 stated that safety is very important to them and they will not hold the even on the ice unless
20 they have indications from the appropriate people that they can hold the event.

21 Mr. Parkhill asked who would make the final decision and what the parameters
22 were. Ms. Pierson stated that they get measurements for ice depth and work very closely
23 with the Hennepin County Water Patrol.

24 Mr. Parkhill asked if they needed any snow to be able to successfully pull off this
25 event. Ms. Pierson answered that they have created holes without snow in the past but it
26 would not be their preferred method.

27 Mayor Pro-Tem Plechash noted that most of the questions he had have been asked
28 and answered already. He stated that this all really boils down to the weather and the
29 outlook for that does not look very bright because there are many days forecasted to be in
30 the 40s. He stated that his major concern at this point is that the neighbors have not been
31 notified about this. He stated that he thinks the if things work out so they are able to hold
32 the event on the ice, he feels that their original location is the one that they would end up
33 making work, but because there may be some strong opposition by the neighbors and they
34 have not had the appropriate notice, he feels that is reason enough not to approve this
35 request. He stated that it feels a bit like they are trying to push a rope.

36 Ms. MacDonald asked if this approval would nullify the original, second option of
37 holding the event on land. Mr. Dahl stated that as long as they do not make that statement
38 within their motion, that the previously approved on land location would still be kept as an
39 option.

40 Ms. Iverson asked how late the event will go and how disruptive it may be at the
41 end of the night. Mr. Kelly stated that event has three tee times, 10:00 a.m., 12:00 noon,
42 and 2:00 p.m. He stated that he expects that it will end somewhere in the 4:00 to 5:00 p.m.
43 time period.

44
45 Mayor Pro-Tem Plechash asked for a motion on the application. Mr. Parkhill made a
46 motion, seconded by Ms. MacDonald, to Approve the Amended Special Event Permit for

the secondary location option for an Amended Chilly Open Event, subject to No Parking signs placed on Shady Oak Lane, Lake Street, Lake Street Extension, East Circle Drive, Wise, Central Avenue and LaSalle Avenue in the adjacent neighborhoods, neighborhood notification by the Chamber, and authorizing staff to work with the Chamber on event details, as needed. The motion failed 2/2 (Plehash and Iverson opposed).

AGENDA ITEM 9. City Manager's Report and Discussion Items.

a. Upcoming Events/Announcements

- Thanked Public Works for filling Klapprich Park and have it ready for a skating rink, however, with the temperatures he thinks its days may be numbered. He encouraged people to get out and use the ice while it was still there.
- The Lakewalk is coming together near the shore and encouraged people to take a look at the progress.
- Dock work on Panoway will begin in March and they are on track to be open before Memorial Day, as planned.
- Marina dredging will begin on January 29, 2024

b. Council Member Updates/Announcements

AGENDA ITEM 11. Public Forum Continued (if necessary).

There were no comments.

AGENDA ITEM 12. Adjournment.

There being no further business, Mayor Pro-Tem Plehash asked for a motion to adjourn. Ms. MacDonald made a motion, seconded by Mr. Parkhill to adjourn. Mayor Pro-Tem Plehash adjourned the meeting at 8:49 p.m.

Respectfully submitted,

Kathy Leervig
City Clerk
